

# Basic Detail Report

---

## Jar

### Date

2nd half of 17th century

### Primary Maker

Artist not recorded

### Medium

Earthenware, tin glaze, cobalt in-glaze

### Description

Unusual tior shape, bulges at equator almost like an orza. Decorated in three bands, the central band is most-prominent with dense construction of petals and dots in impasto blue connected by tendrils concealing some bird figures. The upper band is a light blue line, lower band is an encircling motif of ovoid hooked scrolls. On one side of shoulder, opposite rectangular label panel, are faint traces

of pigment in white, red, and black.

### Dimensions

11 × 10 13/16 × 10 13/16 in. (28 × 27.5 × 27.5 cm)
