

Santa Gertrudis

Primary Maker

José Aragón

Description

She has a large, smooth face, large hands, wears nun's habit, wimple, torpedo shaped sleeves. Having lost her attributes she might be taken for Sta. Rita, but there is the trace of a star or stigmata on the forehead. However, the pose of the hands does not allow for having held a skull.

Dimensions

Overall: 17 5/16 in. (44 cm)
